Horizontal Bamboo shows off the “knuckles” of the grass, providing definition and a beautiful, subtle, textural pattern to your floor. Planks are 37¼” long, 3 ¾” wide, and 5/8” thick, with a JANKA rating of ~1875.

Strand Woven Bamboo is the most durable, ecofriendly floor available. Strand boards have the warm look of Exotic hardwood with greater durability. Our Strand Woven bamboo is two times harder than oak with a JANKA rating of ~3270. Our strand boards are all 72 inches long, allowing maximum design flexibility. Wide and standard widths available. Planks measure 3 ¾” wide or 5 9/16” wide by 72” long, and 5/8” thick.

Carbonized Bamboo goes through a natural heat process to deepen the color in the bamboo to a honeyed tone. This process also improves board durability.

Color Hued Bamboo adds rich color stains to our bamboo. Color Hued eco²BAMBOO comes in a wide spectrum of tones to maximize your decorating options.

Natural Bamboo has a warm, light tone. This natural look shows subtle graining and color variances, providing a gentle pattern that’s easy on the eyes.
